Each licensed ambulance, its equipment and the premises designated in the application and all records relating to its maintenance and operation as such, shall be open to inspection by the board of health, and the board is hereby authorized and empowered to inspect the same, no less than twice a year; and to transmit to the commissioner a copy of each inspection report.

Insurance payment of judgments and awards

103-10. Every ambulance owner shall carry public liability and property damage insurance and workmen's compensation insurance for employees with solvent and responsible insurers approved by the commissioner, authorized to transact insurance business in the State of Illinois and qualified to assume the risks for amounts hereinafter set forth under the laws of Illinois, to secure payment of any loss or damage resulting from occurrence arising out of or caused by the operation or use of any of the ambulances belonging to licensee.

The public liability insurance policy or contract may cover one or more ambulance vehicles, but each ambulance shall be insured for the sum of at least five thousand dollars for property damage and the amount of at least fifty thousand dollars for injuries to or death of any one person, and for the sum of at least one hundred thousand dollars for injuries to or death of more than one person, in any one accident. Every insurance policy or contract for such insurance, shall provide for the payment and satisfaction of any final judgment rendered against the owner, or any person driving any insured vehicle; and that suit may be brought in any court of competent jurisdiction upon such policy or contract by any person having claims arising from the operation or use of such ambulances; it shall contain a description of each ambulance vehicle insured, manufacturer's name and serial number, the state license number, and the ambulance license number.

If any insurance or bond is cancelled or permitted to lapse for any reason, the commissioner shall suspend the license for the ambulance affected for a period not to exceed thirty days, to permit the insurance or bond to be supplied in compliance with the provisions of this section. If such other insurance or bond is not supplied within the period of suspension of the license, the mayor shall revoke the license for such ambulance.

Every ambulance licensee shall pay each judgment or award for the loss or damage in the operation for use of an ambulance rendered against such licensee by any court or commission of competent jurisdiction within ninety days after its judgment or award shall have become final, and not stayed by supersedeas. If any such judgment shall not be so paid, the mayor shall revoke the license of the ambulance concerned.

Standards of ambulance equipment

103-11. Required equipment in each ambulance shall include, at all times when the ambulance is in use as such, equipment adequate in the judgment of the board of health for dressing wounds, splinting fractures, controlling hemorrhages, and administering oxygen.

The board of health is authorized and directed to promulgate regulations to implement the standards provided herein as to required equipment in ambulances. In determining the adequacy of equipment, the board of health shall take into consideration the current list of minimal equipment for ambulances, adopted by The American College of Surgeons, or its duly authorized committee on Trauma. Each licensee of an ambulance shall comply with such regulations hereunder, as may be promulgated by the board of health, and shall maintain in each such ambulance, at all times when it is in use as such, all equipment as may be so prescribed.

Attendant-driver license

103-12. It shall be unlawful for any person to drive an ambulance or to act as an attendant on an ambulance or to participate in the transportation and care of patients in any manner whatsoever on any public way from place to place within the corporate limits of city without first having obtained a license as an attendant, or as an attendant- driver.

Application and fee for attendant or attendant-driver license

103-13. All applications for ambulance attendants or attendant-driver license shall be made in the

same manner as application for public chauffeur license, and shall be subject to provisions of sections 3, 4, and 6 of chapter 28.1 of this code, *provided, further,* that applicant for attendant-driver license shall be subject to examination provisions of section 5, of chapter 28.1, *except that such applicants need not be domiciled in the City of Chicago, as provided in section 5.1;* and it shall also contain statement of applicant's training and experience in transportation and care of patients, state whether applicant has previously been licensed as a driver, chauffeur, attendant or attendant-driver; if so, when and where, and whether or not such license has ever been revoked or suspended in any jurisdiction and for what cause.

The commissioner shall not issue an attendant or attendant-driver license unless applicant for such license shall have a currently valid certificate from the board of health, or other appropriate agency recognized by said board, evidencing successful completion of a course of training equivalent to the advanced course in First Aid given by American Red Cross or The United States Bureau of Mining.

It shall be unlawful for any person to drive an ambulance or to act as attendant on such ambulance without being properly certificated in the care and treatment of patients as prescribed above, and while so acting shall have in his possession all licenses or certificates issued pursuant to the provisions of this code.

Fees paid for attendant or attendant-driver license:

Original	$5.00
Renewal	3.00
Replacement (if lost)	2.00

Said fee shall be paid in advance when the application is submitted and shall be applied to the cost of such license including, without being limited to, the investigations, inspections and investigation necessary therefor.

No official entry made upon a license may be defaced, removed or obliterated.

Suspension and revocation

103-14. The commissioner may, and is hereby authorized to suspend any license issued pursuant to this chapter for failure of any licensee to comply with and to maintain compliance with, or for violation of, any applicable provisions of this chapter or of regulations promulgated hereunder or of State laws and provisions of this code relating to health, sanitation and safety and regulations promulgated thereunder, for a period not to exceed thirty days, either on his own findings of non-compliance or upon a recommendation of suspension for non-compliance made to the commissioner by board of health. If any person has obtained a license pursuant to the provisions of this chapter by an application in which any material fact was omitted or stated falsely, or if any licensee shall become unfit to operate an ambulance vehicle on account of any infirmity of body or mind, or because of addiction to the use of drugs or intoxicating liquors, or if convicted of a felony or any criminal offense involving moral turpitude, or is found not to be in compliance with the requirements of this code within the time set for such compliance, then commissioner may recommend to the mayor that license shall be revoked and the mayor, in his discretion, may revoke such license.

Renewal

103-15. The commissioner may renew any license issued pursuant to this chapter, from year to year, upon application made on the form furnished by the commissioner which shall state the name and Chicago address of applicant, date upon which his original license was granted, and number thereof. No ambulance license shall be renewed unless the commissioner has on file a current satisfactory inspection report from the board of health as provided for in section 103-6 of this chapter.

Consent of sick or injured person

103-16. No sick or injured person shall be conveyed against his will by any ambulance, from the place where he was overcome by sickness or from the scene of the accident in which he was injured, nor, having been placed in an ambulance, shall he be conveyed to a place to which he is unwilling to go; provided, that if such sick or injured person is unable to give any direction in his own behalf and there is no immediate relative present to direct where he shall be taken, such sick or injured person shall be conveyed to the nearest regularly licensed hospital that will receive him.

Obedience to traffic laws, ordinances and regulations

103-17. The driver of an ambulance, when responding to an emergency call or while transporting a patient, may exercise the privileges set forth in this section but subject to the conditions herein stated; and only when such driver has reasonable grounds to believe that an emergency in fact exists requiring the exercise of such privileges.

The driver of an ambulance may park or stand, irrespective of the otherwise applicable provisions of law, ordinance or regulation, proceed past a red or stop signal or stop sign, but only after slowing down as may be necessary for safe operation; disregard laws, ordinances or regulations governing direction or movement or turning in specified directions; *provided, however,* that no ambulance shall exceed the lawful speed limit unless so directed by a licensed physician.

The exemptions herein granted shall apply only when the driver of said vehicle, while in motion, sounds audible signal by siren as may be reasonably necessary and when the vehicle is equipped with at least one lighted lamp displaying an oscillating, rotating or flashing red beam visible under normal atmospheric conditions from a distance of 500 feet to the front of such vehicle.

The foregoing provisions shall not relieve driver of an ambulance from duty to drive with due regard for the safety of all persons, nor shall such provisions protect the driver from the consequences of his reckless disregard for the safety of others.

Fair employment practice—discrimination

103-18. Landlord has constructed roadways and lines for water, sewage, electricity, gas and storm drainage in the vicinity of the demised premises as indicated on Exhibit "B" attached hereto and made a part hereof. Tenant is granted the right and privilege, at its own expense, to continue the construction of such roadways, lines, and drainage ditches to serve the facility to be constructed on the demised premises, all in accordance with plans and specifications as outlined and approved by the Commissioner of Aviation and the Commissioner of Public Works.

It is understood and agreed that prior to commencement of construction, the plans of Building shall be submitted to the District Airport Engineer of the Federal Aviation Agency, pursuant to part 77 of the Federal Aviation Regulations. Upon completion of Building it shall thereafter not be enlarged without in each case the consent in writing of the Commissioner of Aviation and the Commissioner of Public Works first had and obtained and permits received therefor.

Tenant shall at all times throughout the term hereof maintain the Building and all other portions of the demised premises in good and serviceable condition and repair.

Tenant shall keep the demised premises and the Building, improvements and facilities constructed thereon free and clear of any and all liens in any way arising out of the action, or use thereof, by Tenant; provided, however, that Tenant may in good faith contest the validity of any lien.

Article V

Tenant shall illuminate the apron in front of the Building and shall also install, maintain, and operate such obstruction or warning lights on structures in or constituting part of the demised premises as may from time to time be required to conform to Federal Aviation Agency standards or to conform to standards prescribed by any other governmental agency having jurisdiction.

Tenant shall not install, erect or place, or permit others to so do, any illuminated signs, placards, displays or other advertising media on Building or elsewhere on Airport, without the prior written consent of the Commissioner of Aviation.

Landlord, by its representatives, shall have the right at any reasonable time, and as often as it considers necessary to inspect the demised premises and (without any obligation so to do) to enter thereon to direct Tenant to make ordinary repairs to insure a continuing quality.

Article VI

Title to Building and related improvements to the demised premises and to any and all subsequent alterations, modifications, and enlargements, shall upon completion thereof vest in Landlord.

In the event that the demised premises are required for Airport purposes prior to the expiration of this Agreement, the Commissioner of Aviation may, upon sixty (60) days advance written notice to the Tenant direct Tenant to vacate the same provided that Landlord, within sixty (60) days after Tenant's removal therefrom, will pay to Tenant the unamortized portion of the cost of the permanent structures and improvements constructed and installed thereon; such amortization to be computed on a straight-line basis over the period from the completion of said improvements to the expiration date of the term hereof.

Article VII

Landlord hereby grants to Tenant the right of access and ingress to and egress from the Demised Premises by Tenant and its employees, contractors, suppliers, servicement, sublessees, guests, patrons and invitees; provided, that such rights of egress, are at all times exercised in conformance with any and all regulations promulgated by Landlord or the Commissioner of Aviation or other lawful authority, for the care, operation, maintenance and protection of the Airport and the public.

The operations of Tenant and its employees shall be conducted in an orderly and proper manner so as not to annoy, disturb or be offensive to others at the Airport. Landlord shall have the right to complain to Tenant as to the demeanor, conduct, or appearance of Tenant employees, whereupon Tenant will take all steps necessary to remove the cause of the complaint.

The acceptance of rent by Landlord, whether in a single instance or repeatedly, after it falls due, or after knowledge of any breach hereof by Tenant, or the giving or making of any notice or demand, whether according to any statutory provision or not, or any act or series of acts except an express waiver in writing, shall not be construed as a waiver of Landlord's right to act or of any other right hereby given Landlord, or as an election not to proceed under the provisions of this Agreement.

The obligation of Tenant to pay the rent reserved hereby during the balance of the term hereof shall not be deemed to be waived, released or terminated by the service of any five (5) day notice, other notice to collect, demand for possession, or notice that the tenancy hereby created will be terminated on the date therein named, the institution of any action of forcible detainer or ejectment or any judgment for possession that may be rendered in such action, or any other act or acts resulting in the termination of Tenant's right to possession of the demised premises. Court Decisions.

Also communications from the Law Department addressed to the City Council, signed by Ronald S. Cope and Marsile J. Hughes, Assistants Corporation Counsel and Syney R. Drebin, Head of Appeals and Review Division, transmitting the following decisions, which were *Placed on File:*

Joseph L. Audino, Plaintiff-Appellee, vs. *Board of Appeals of the City of Chicago, et al., Defendants-Appellants, Illinois Appellate Court No. 50797.*

The Appellate Court on October 4, 1966 filed an opinion reversing the judgment of the Circuit Court of Cook County and remanding the cause with directions to enter judgment for the defendants. The plaintiff filed an application for a special use permit under the Chicago Zoning Ordinance to construct a two-story brick four dwelling unit apartment building in a B4-2 Restricted Service District on the premises known as No. 5916 W. Fullerton Avenue; the Zoning Administrator denied the application and the plaintiff appealed to the Zoning Board of Appeals; after the Board of Appeals refused to grant a special use, plaintiff filed an Administrative Review action in the Circuit Court of Cook County and that Court reversed the Board of Appeals. On appeal to the Illinois Appellate Court the Court distinguished between the requirements for a "variation" and "special use" and agreed with the defendants argument that the plaintiff had not introduced evidence to satisfy the requirement of Chapter 194A, Article II, paragraph 11.10-4, of the Chicago Zoning Ordinance.

Joseph Rotella, Plaintiff-Appellee, vs. *Civil Service Commission of the City of Chicago, and Milton Pikarsky, Commissioner of Public Works of the City of Chi-*

cago, Defendants-Appellants, Illinois Appellate Court No. 50643.

The Illinois Appellate Court on September 19, 1966 filed an opinion reversing the judgment of the Circuit Court of Cook County and affirming the finding and decision of the Civil Service Commission of the City of Chicago. The plaintiff, a Supervising Timekeeper in the Department of Public Works of the City of Chicago was charged with conduct unbecoming an employee of the City of Chicago and inefficiency in the service, found him guilty and discharged him from his position. The plaintiff then filed an action under the Administrative Review Act and after a hearing before the Circuit Court, the Court reversed the Commission's finding; on appeal to the Appellate Court, the Court after a careful review of the record in the case (which involved acceptance by the plaintiff of payroll checks of specified periods which contained payments for overtime work which he had not in fact performed during the said period). The Court found that the plaintiff should have known that he was not entitled to such payment and that the Circuit Court erred in finding otherwise.

Mutual National Bank of Chicago, a National Banking Association, as Trustee, etc., Trust No. 3385, Plaintiff-Appellee vs. *City of Chicago, a municipal corporation, Defendant-Appellant, Appellate Court No. 50578.*

The Appellate Court of Illinois, First District, on September 20, 1966 filed an opinion reversing the judgment of the Circuit Court of Cook County remanding the cause with instructions to dismiss the suit for want of equity; the Circuit Court had entered a judgment based on a Master's report and recommendations, invalidating the R3 zoning of the frontage along the west side of S. Halsted Street between W. 91st and W. 93rd Streets and declaring the plaintiff's right to erect thereon buildings permitted under the R4 zoning regulations of the Chicago Zoning Ordinance. Under appeal to the Illinois Appellate Court, the Court sustained the R3 zoning, holding that the plaintiff failed to overcome the presumed validity of the zoning ordinance; that the R3 residential restrictions were related to the public welfare; that the validity of such regulations had already been established; that the R3 zoning of the subject property was upheld by the compatibility of the surrounding zoning and uses and that the plaintiff failed to show that the R3 zoning subjected it to any unusual hardship.

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadway(s) of the several street(s) heretofore specified between the points herein described, also the roadway(s) of all intersecting alley(s) extended from the curb line to the street line on each side of said specified street(s) between the points herein described shall be so graded by cutting for filling and compacted by rolling with a roller of ten (10) tons weight that after the grading of the roadbed(s) is completed and the pavement herein described placed thereon, the surface of the finished pavement at the center of the roadway of each of said specified street(s) shall be at the elevation of the top of the curbing herein described; and the surface of the said finished pavement at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and at the catchbasin inlets in the gutters adjoining the roadway face of the curbing shall be nine (9) inches below the top of said curbing. The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets.

A transverse section of the surface of the finished pavement and gutters shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadway at every part of the roadway of each of said specified street(s) between the points herein specified.

In all intersecting alley(s) herein specified at the street line(s) of said specified street(s) the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadway(s) of said alley(s) shall be three (3) inches below the top of the curbing; and a transverse section of the surface of the finished pavement at the street line(s) of said

specified street(s) shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadway(s). The surface of the said pavement thence shall slope gradually to meet the surface of the finished pavement at the curb lines of said specified street(s).

On the sub-grade as formed and compacted shall be spread an insulation course of limestone screenings. Said insulation course shall be one (1) inch in thickness and shall extend across the full width of the roadbed.

On the insulation course as formed and compacted shall be spread a foundation course consisting of a layer of crushed limestone of the best quality, broken so as to pass through a ring of four (4) inches internal diameter and held on a ring of two (2) inches internal diameter. The stone spread shall be well graded as to sizes. It shall be evenly distributed so as to leave no pockets filled with the small size stone. This layer shall be thoroughly rolled with a self propelled three wheel roller, weighing not less than ten (10) tons. The rolling shall begin at the edge of the pavement and the roller shall move parallel with the center line of the roadway. The roller shall progress gradually towards the center of the roadway, uniformly lapping each proceeding track, covering the entire surface with the rear wheels and continuing until the stone does not creep or move ahead of the roller. After the crushed limestone has been thoroughly rolled and keyed, limestone screenings shall be applied gradually over the surface and the rolling continued until sufficient screenings have been applied to completely fill the interstices.

The screenings shall be swept in with hand brooms to properly fill the voids. The spreading and rolling shall continue until no more screenings will go in dry. No excess of screenings shall be used before applying water. Immediately after the voids have been filled with screenings, the macadam shall be sprinkled until saturated, the sprinkler being followed by a roller. More screenings shall be added if necessary. The sprinkling, sweeping and rolling shall continue until a grout shall be formed of the screening and water that will fill all voids, and form a wave of grout before the wheels of the roller. The quantity of screening and water necessary to fill the voids shall be determined by the engineer and shall be sufficient to produce a rough, granular surface. The rolling, at all times, shall begin at the sides, and then progress toward the center, thoroughly covering the entire surface with the rear wheels. When compacted, this layer shall measure not less than five (5) inches in thickness.

Upon the finished waterbound macadam base there shall be uniformly applied by an approved type of spreader box, two (2) inch stone to a depth providing a total base course thickness of three (3) inches after final compaction. After shaping to grade and rolling with a ten (10) ton roller three quarter (¾) inch stone chips shall be broadcast and broomed into the surface voids at the rate of fifteen (15) pounds per square yard. Liquid asphalt at a temperature of 140 degrees F. shall be uniformly applied by a pressure distributed at a rate of one and one-half (1½) gallons per square yard. Stone chips shall again be broadcast and broomed uniformly over the surface at the rate of fifteen (15) pounds per square yard. Liquid asphalt shall be uniformly applied by a pressure distributor at the rate of one-half (½) gallon per square yard. Stone chips shall be broadcast again at the rate of ten (10) pounds per square yard. The surface shall then be thoroughly rolled. The asphalt shall conform to the State Specification for Emulsified Asphalt R. S. 1 and R. S. 2, Page 640 of Illinois Standard Specifications for Road and Bridge Construction adopted January 2, 1952.

On the said foundation courses shall be placed an asphaltic concrete surface course two (2) inches in thickness consisting of an asphaltic concrete mixture conforming to the standard requirements of the Illinois State Division of Highways for Type 1-11 Asphaltic Concrete adopted January 2, 1952, as follows: The asphaltic mix shall consist of a mineral aggregate bonded with the asphaltic cement. The mineral aggregate shall consist of the best quality of crushed gravel or crushed stone in sizes graded in accordance with the following table, viz:

Asphaltic Concrete Surface Coursed, Fine Dense Graded Aggregate Type.

Passing ½ inch sieve	95-100%
Passing ½ inch, retained on No. 4 sieve	45- 65%
Passing No. 4 retained on No. 10 sieve	10- 30%
Passing No. 10 retained on No. 40 sieve	5- 18%
Passing No. 40 retained on No. 50 sieve	7- 22%
Passing No. 80 retained on No. 200 sieve	5- 13%
Passing No. 200 sieve	4- 8%
Bitumen	5- 7%

(Table 45. llp. 247 State Specifications)

The asphaltic cement shall conform with the standard requirements of the Illinois State Division of Highways for Grade P.A. 6 Paving Asphalt, adopted January 2, 1952. It shall have a flash point (Cleveland open cup) 500 plus Fahrenheit. It shall have penetration at seventy-seven (77) degrees Fahrenheit of seventy-five (75) to eighty-five (85), and at least ninety-nine and five-tenths (99.5) per cent of bitumen shall be soluble in carbon disulphide.

When fifty (50) grams of said paving asphalt is heated in an uncovered tin box five and one-half (5½) centimeters in diameter and three and one-half (3½) centimeters in depth, and is held at a temperature of three hundred and twenty-five (325) degrees Fahrenheit for five (5) hours, then it shall have lost not over two (2) per cent by weight and the penetration of the residue thus obtained shall not be less than seventy (70) per cent of the penetration before such heating, said penetration being determined as herein described. Said paving asphalt shall have a ductility of not less than one hundred (100) centimeters being determined by elongating a briquette Dow form of said paving asphalt at uniform rate of five (5) centimeters per minute at a temperature of seventy-seven (77) degrees Fahrenheit.

The paving asphalt and mineral aggregate shall be mixed when heated between three hundred (300) and three hundred fifty (350) degrees Fahrenheit in an approved mixer to produce a homogenous mixture in which all particles of aggregate are coated uniformly. The heated mixture shall be delivered to the pavement in trucks with approved clean tight dump bodies. The temperature when delivered at the street shall be between two hundred fifty (250) and three hundred fifty (350) degrees Fahrenheit. Upon arrival the asphaltic mixture shall be spread upon the prepared base at a uniform depth and consistency so that the thickness when compacted as herein described will be two (2) inches.

Immediately after the asphalt surface course

shall be spread it shall be connected thoroughly and uniformly with a three (3) wheel roller or a tandem roller. The asphalt paving mix shall be dumped first upon approved steel dump pans outside of the area on which it is to be spread. Immediately thereafter it shall be distributed into place with shovels and spread with rakes in layers of uniform density and correct depth, unless a spreading machine is used. If a spreading machine is used it shall be of a type approved by the Board of Local Improvement. Immediately after the surface course mixture is placed it shall be compacted thoroughly with a three-wheel roller or a tandem roller. One (1) or more three-wheel rollers and one (1) or more tandem rollers will be required. The actual number of such rollers to be determined by the Engineer in accordance with the progress of the work. If the production of the asphalt plant delivered to the pavement exceeds seventy-five (75) tons per hour additional rollers shall be furnished as directed by said Engineer. After a final rolling the asphalt surface course shall at all points have a density of not less than ninety-five (95) per cent of the maximum possible density of a voidless pavement composed of the same materials in like proportions.

Concrete crosswalks shall be built at intersections only. Concrete crosswalks shall be built according to the Standard City Code of the City of Chicago.

The concrete shall conform to Class X Concrete (as described in this ordinance for curbs and gutters).

All existing catchbasins which are to be abandoned are located at the intersections of streets. Where existing catchbasins are to be abandoned, the outlet pipe connection from the catchbasin to the sewer shall be plugged and properly sealed and the corbel courses broken down and the catchbasin cleaned and filled with suitable material.

Additional masonry where necessary.

Said work is to be done in a workmanlike manner under the superintendence of the Board of Local Improvements of the said City of Chicago.

Section 2. That the recommendation of the Board of Local Improvements of the City of Chicago, providing for said improvement, together with the estimate of the cost hereof, including the lawful expenses attending the same, made by the engineer of said Board both hereto attached, be and the same are hereby approved.

Section 3. That said improvement shall be made and the cost thereof, including the lawful expenses attending the same, be paid by special assessment in accordance with an Act of the General Assembly of the State of Illinois, entitled "An Act Concerning Local Improvements", approved June 14th, A.D. 1897, and the amendments thereto, and that of said special assessment the sum of Eleven Thousand Four Hundred Thirty-Two and no One-Hundredths Dollars ($11,432.00), not exceeding five (5) per centum of the amount of said assessment as finally determined after the completion of said improvement in accordance with Article 9-2 of said Act, shall be applied toward the payment of the cost of making, levying and collecting said special assessment, and of letting and executing contracts, advertising, clerical hire, engineering and inspection, court costs and deficiency in interest in the matter of said special assessment, in accordance with the provisions of said Act.

Section 4. That the aggregate amount herein ordered to be assessed against the property, and also the assessment on each lot and parcel of land therein assessed shall be divided into five (5) installments in the manner provided by the statute in such cases made and provided, and each of said installments shall bear interest at the rate of five (5) per centum per annum according to law until paid.

Section 5. That for the purpose of anticipating the collection of the second and succeeding installments of said assessment for said improvement (excepting such part, if any, that is chargeable to the City of Chicago for public benefits to public lands), bonds shall be issued payable out of said installments bearing interest at the rate of five (5) per centum per annum, payable annually, and signed by the Mayor and by the President of the Board of Local Improvements, countersigned by the City Comptroller and attested by the City Clerk under the corporate seal of the City of Chicago. Said bonds shall be issued in accordance with and shall in all respects conform to the provision of the Act of the General Assembly of the State of Illinois, entiled "An Act Concerning Local Improvements", approved June 14th, A.D. 1897, and the amendments thereto.

Section 6. That the Corporation Council be and he is hereby directed to file a petition in the Circuit Court of Cook County, Illinois, in the name of the City of Chicago, praying that steps may be taken to levy a special assessment for said improvement in accordance with the provisions of this ordinance and in the manner prescribed by law.

Section 7. That all ordinances, or parts of ordinances, conflicting with this ordinance be and the same are hereby repealed.

Section 8 This ordinance shall be in force from and after its passage.

Placed on File—ANNUAL REPORT OF COMMITTEE ON LOCAL TRANSPORTATION.

Alderman Marzullo as Chairman of the Committee on Local Transportation submitted the following communication, which was, together with the committee's annual report transmitted therewith, *Placed on File:*

Honorable Richard J. Daley, Mayor, and Members of the City Council of the City of Chicago:

GENTLEMEN—The Committee on Local Transportation herewith submits its annual report of activities in the field of mass transportation for the year 1965.

The function of the Committee is to investigate and recommend to the City Council legislation which, in some cases originates with the Committee and in others at the direction of the full City Council concerning all matters which are appropriate or necessary in the operation of mass transit within the City of Chicago.

The principal transportation agency which concerns the Committee is the Chicago Transit Authority. The Committee Staff checks the operations of this facility to assure proper and adequate service to the riding public.

The Committee Engineer, Mr. Ralph F. Gross, is the intermediary between the various transportation agencies and the City Council in all matters affecting local transportation. Mr. Gross meets regularly with the members of the Chicago Transit Authority Board to discuss and resolve amicably

any problems or complaints affecting the mass transportation services.

In the matter of the operation of independent bus companies ie:—suburban buses, school buses, sight-seeing buses etc., the Committee thru its Staff and thru the cooperation of the Bureau of Street Traffic designates streets on which these buses may operate, and with the Corporation Counsel presents to the Illinois Commerce Commission the City's position on petitions for these operating rights.

Railroads continue to petition the Illinois Commerce Commission for relief from unprofitable suburban operations due to a continuing loss of patronage resulting from competition from buses and the private automobile. The Staff presents data at these hearings to minimize service cuts which are regarded as not in the best interests of the riding public.

The Committee investigates and recommends to the Council locations on city streets to be set aside for the exclusive use of C.T.A. buses, suburban buses and taxicabs. These areas are known as stands and require Council approval of their installation.

The Staff participates in the cordon count of vehicles and pedestrians in the Central Business District to determine the volume and density of traffic in this area.

Section 129-55.3 of the City Code prohibits operation of trucks carrying flammable materials on streets under which subways are located. The Staff continues to check for violators of this important ordinance. The violations are declining in number but the need for continued surveillance is essential in the interest of public safety.

We acknowledge with thanks the cooperation of other city departments, local transportation agencies and civic organizations in the execution of our activities; and we are grateful to the members of our Staff for their efforts during the year 1965.

Respectfully submitted,

(Signed) VITO MARZULLO,
Chairman.

2. Tenant, at its own expense, shall furnish all heating, gas, water, electricity, and other public utility service and janitorial services and shall furnish whatever services are necessary to operate the building equipment.

Tenant shall be responsible for the removal of all snow, and ice, on or about said premises and all abutting streets and sidewalks and public thoroughfares at its own cost and expense. The Tenant also agrees to keep the parking area adjoining said premises free from rubbish, dirt, ashes, garbage, excelsior, straw and other refuse. Tenant agrees to keep all accumulated rubbish in covered con-

tainers and to have same removed regularly. The Lessor agrees to comply with all laws, ordinances, and regulations affecting the ownership thereof and the tenant agree that it will not permit any unlawful occupation, business or trade to be conducted on said premises or any use to be made thereof contrary to law, ordinance or regulation as aforesaid with respect thereto.

Maintenance and Repairs

4. Lessor represents and warrants that on the date hereof and as of the first day of the term of this lease, the improvements on the demised premises are and will be structurally sound and in good condition and repair. During the term hereof, and subject to the provisions of this lease elsewhere set forth, Tenant covenants and agrees to take good care of the surfaced parking areas, gates and fences from damage caused by Lessee or its agents or employees, and the exterior of the buildings and other improvements and to keep same in good order and condition, reasonable wear and tear excepted, and to make all necessary repairs thereto, both interior and exterior, structural and non-structural, and shall replace any part of the 800 foot of cyclone fence, in connection with the operation of said premises, in the event the same is damaged or removed by the Lessee prior to the termination of the Lease; Provided, however, that, except as hereinafter provided, the cost of such repairs and maintenance shall be borne entirely by Tenant. The cost of all exterior structural repairs, including repairs to the roof, shall be paid by the Lessor, provided Tenant notifies the Lessor in apt time to make such repairs, unless such repairs or damages to said premises are caused by the act or negligence of the Tenant, or any of it agents, or employees.

Additions, Changes, Alterations, and Removals

5. The Tenant may alter, rearrange, or change the interior of the building within the demised premises only upon the prior consent and approval of Joseph Levy or to such other nominee designated in writing by the Lessor for and on behalf of the Lessor, Provided:

(a) The Tenant shall notify the Lessor in writing, specifying in detail the alterations or additions contemplated.

(b) Such notice shall be accompanied by a plan, blue print, or diagram showing such proposed alterations or additions; and Tenant is to perform said work as shown in a plan, blue print or diagram for a specified cost stated therein which is to be furnished to the Lessor.

(c) The Lessor shall, within reasonable time, indicate in writing its approval or disapproval of said contemplated alterations or additions.

(d) Lessee will and does hereby agree to indemnify and to hold and save harmless any of said premises of and from and against any and all claims, losses or damages resulting from the failure of the Tenant, its agents, servants and employees or independent contractors to fully complete its alterations or additions in accordance with said plan or blue print, or to fully pay therefor, or to remove or bond any and all mechanics' liens filed against the demised premises or the building on which same form a part, for claims for work done or materials furnished, it being understood that Tenant's failure to remove or bond any such lien within ten (10) days after notice of filing thereof shall in and of itself constitute damage to the Lessor in the amount of said lien and any expense it may be put to in removing the same, including attorneys' fees.

It is further mutually agreed that Tenant may at its expense, provided all necessary permits are obtained, install upon the demised premises underground gasoline or fuel storage tanks, together with pumps and other related equipment used in conjunction with such storage tanks—it being understood that such pumps and related equipment shall be and forever remain the property of the Tenant, provided, however, that such storage tanks shall be treated as a permanent addition in accordance with the provisions of this Section 5.

All permanent additions to the improvements on the demised premises shall belong to Lessor and become part of the demised premises, except as herinabove provided and except as provided in Section 8. All alterations and construction shall be made in a substantial manner and shall comply with the laws, ordinances and regulations governing the construction of the same, and Tenant shall save the Lessor harmless of and from any loss or damage by reason of any such alterations or construction. Tenant shall have the right to place upon or attach to any building or structure such signs or advertisements of its business as it shall deem fit, provided, however, that Tenant agrees to hold Lessor harmless from any liability therefrom, by reason of its acts of omission or commission, or that of its representatives, agents or employees.

Fire and Extended Coverage Insurance

6. During the entire term of the lease Lessor shall maintain in force insurance on the improvements located upon the demised premises against loss or damage by fire and other risks normally included by standard extended coverage endorsements up to 80% of the full insurable value thereon in coinsurance form. Such insurance shall be procured from a responsible insurance company or companies reasonably satisfactory to Tenant and authorized to do business in Illinois, and Certificates evidencing such insurance shall be delivered to Tenant.

Damage or Destruction

7. (a) In the event of total destruction of the demised premises by fire or other casualty the rent reserved hereunder shall abate in whole and either party may, upon notice to the other given within thirty (30) days after the date of such destruction, terminate this lease as of the date of such destruction or damage, and in the event of such termination Lessor agrees to refund any prepaid unearned rent to Tenant. If neither party exercises its option to terminate in the event of total destruction, Lessor covenants and agrees to proceed with all reasonable diligence, at its sole cost and expense, to restore the demised premises to substantially the same condition they were in immediately prior to such destruction, and Tenant agrees upon completion of said restoration to re-occupy, as of the date of such completion, the demised premises for the remainder

of the term of this lease and under the provisions hereof taken for these purposes as if such destruction had not occurred, provided, however, that if such restoration is not completed by the 180th day after such destruction, then this lease shall be terminated without further act of the parties.

(b) In the event that the premises are partially destroyed or damaged by fire or other casualty and if a licensed architect selected by the Tenant and acceptable to the Lessor shall certify that said destruction or damage may be restored and repaired within a period of time not to exceed 120 days from the date of such destruction or damage, then it is agreed that rent shall abate in whole or in part to the extent of the untenability of the demised premises as reasonably determined by Tenant and Lessor, and Lessor covenants and agrees to proceed with all reasonable diligence at its sole cost and expense to repair and restore the demised premises to substantially the same condition they were in immediately prior to such damage or destruction. Upon completion of said repairs and restoration, the rent reserved under this lease shall resume as of the date of such completion, provided, however, that if such destruction or damage shall not be repaired or restored on or before the 120th day after the date of such destruction or damage, Tenant may at its option either complete said repairs and restoration at its own expense and deduct the cost thereof from the remaining installments of rent reserved hereunder, or terminate this lease upon notice given to Lessor no sooner than the 120th day after and no later than the 130th day day after such destruction or damage.

In the event that the architect shall certify that the repair and restoration of any partial destruction or damage as provided for in the next preceding paragraph cannot be restored within the time provided for therein, then such partial destruction or damage shall be considered as total destruction and the provisions of Section 7 (a) shall apply.

(c) It is mutually covenanted and agreed that the provisions of Section 7 (a) and Section 7 (b) shall apply irrespective of the cause of any destruction or damage and irrespective of whether or not such destruction or damage is covered by insurance. Tenant shall in no event be liable to Lessor or any person or persons claiming through Lessor for any loss or damage resulting wholly or in part from fire or other casualty irrespective of the person or things causing such loss or damage.

Removal of Fixtures, Etc.

8. Upon the termination of this lease at the expiration thereof or otherwise, or at any time during the continuance thereof, Tenant shall have the right at its own expense to remove from the demised premises any item furnished or installed by Tenant at Tenant's expense including without limiting the generality of the foregoing all portable shelving, apparatus, counters, carpeting, and other trade fixtures, machinery and equipment (excepting therefrom the items specified and provided in Paragraph 5 herein); provided that upon Lessor's demand at the time of such removal, the portion or portions, if any, of the demised premises injured by such removal, shall be restored to their former condition, ordinary wear and tear and damage by fire or other casualty excepted.

Quiet Enjoyment and Default Provision

9. Lessor covenants that Tenant, its successors and assigns, on paying the rent in accordance herewith, and performing the covenants herein contained, shall and may peacefully and quietly have, hold and enjoy the demised premises for the term aforesaid, or any extension or renewal thereof, but if any rent shall be due and unpaid, or if default shall be made by Tenant in any of the covenants herein contained to be by it performed, and such rent shall remain due and unpaid, or such default shall continue for thirty (30) days after written notice thereof to Tenant, then and in such event it shall be lawful for Lessor to re-enter the premises and to remove all persons therefrom.

It is understood and agreed that in the event Lessor shall fail to perform any of the covenants and agreements herein contained on its part to be performed, and such default shall continue for thirty (30) days after written notice thereof shall have been given to Lessor by Tenant, Tenant may, at its option, either quit the premises and shall thereupon be freed from any liability to pay rent hereunder, and this lease shall thereupon be of no further force and effect; or Tenant may do the acts or things required of Lessor under this lease, and may thereupon deduct its expenditures, losses, and damages incurred in connection therewith from the rentals to be paid under this lease. It is understood and agreed that the failure of Tenant to elect to do either of the acts or things enumerated above does not thereby constitute a waiver of damages resulting from Lessor's breach of contract.

Hold Harmless

10. Except as otherwise provided in Section 7 (a), Tenant agrees to indemnify, protect and save harmless the Lessor from any and all claims and demands for injury or damage to persons or property occurring on or about the demised premises and resulting from any act, neglect, or omission of Tenant, its agents or employees.

Leased Personal Property

11. As hereinbefore provided, Tenant shall, during the term of this lease, have the right to use all garage equipment located on the premises. Such equipment, without limiting the generality of said words, shall include wheel alignment equipment, greasing equipment, lifts, tanks, pumps, compressors and equipment ordinarily used in connection with the operating of a garage, and which are installed in the demised premises at the beginning of the term hereof. A schedule of said property, belonging to the Lessor, and which shall remain Lessor's property, is described in, and designated as Exhibit "A", and hereinafter set forth.

Tenant agrees to maintain the garage equipment in good order and repair, reasonable wear and tear excepted.

Removal of Signs

12. Lessor shall have the right to remove all steel lockers now situated in said premises.

Lessor agrees, at its own expense, on and after the commencement of the term hereof, to remove or have removed all signs relating to any business heretofore conducted on the demised premises and inside of the demised premises. All outside signs shall remain upon said premises and shall not be removed by Tenant, excepting the electric signs on outside of building, which shall be removed by Lessor.

The Lessor does covenant and agree to black out all advertising on sign boards and building situated on the premises demised to the Tenant. Lessor agrees to replace or repair all of the downspouts where required; repair existing roof leaks; and paint the existing fence on said premises.

Waivers

13. Except to the extent that Lessor may have otherwise agreed in writing, no waiver by Lessor of any breach by Tenant of any of its obligations, agreements or covenants hereunder shall be deemed to be a waiver of any subsequent breach of the same or any other covenant, agreement or obligation. Nor shall any forbearance by Lessor to seek a remedy for any breach by Tenant be deemed a waiver by Lessor of its rights or remedies with respect to such breach.

Covenants

14. Except as hereinabove provided, all of the covenants, provisions, terms and conditions of this lease, whether so expressed or not, shall bind and inure to the benefit of the successors and assigns of the respective parties hereto.

Modifications

15. None of the covenants, provisions, terms or conditions of this lease to be kept or performed by Lessor or Tenant shall be in any manner modified, waived or abandoned except by written instrument duly signed and delivered by Lessor and Tenant.

Notices

16. Any notice herein required or permitted to be given by Tenant to Lessor shall be deemed to have been properly given if and when sent by United States Certified or Registered Mail, postage prepaid, properly addressed to Joseph Levy, or such other nominee designated in writing by the Lessor, at 5050 Dempster Street, Skokie, Illinois, for and on behalf of Lessor. Any recourse hereunder against American National Bank and Trust Company of Chicago is only to be against the trust estate.

Additional Rent

18. It is mutually agreed that this lease shall not be construed to impose upon the Tenant the obligation to pay any general real estate taxes applicable to the demised premises.

All of the covenants, agreements, conditions and undertakings in this lease contained shall extend to and be binding upon the successors and permitted assigns of the respective parties, the same as if they were in every case named and expressed, and the same shall be construed as covenants running with the land.

Insurance requirements hereunder shall be subject to the sole determination of the Comptroller. All policies or endorsements thereto shall in all cases where possible name Sublessor as co-insured thereunder.

Upon approval by said Comptroller of all insurance required, in the forms, kinds and amounts directed to be procured, Sublessee shall deliver all policy originals or duplicate originals and endorsements thereto to said Comptroller.

Sublessee expressly understands and agrees that any insurance protection furnished by Sublessee hereunder shall in no way limit its responsibility to indemnify and save harmless Sublessor under the provisions of Article VI of this Agreement.

Article VIII

In the event the spaces and areas granted to Sublessee hereunder, or the building of which the same are a part, shall be damaged or destroyed by fire or other casualty, Sublessor shall seek to have same promptly repaired or rebuilt, but Sublessor shall not be obligated to repair or rebuild any fixtures, equipment, furnishings or furniture installed by Sublessee, pursuant to this Agreement.

Provided, however, that Sublessor may elect, at its sole option, not to seek the repair or reconstruction of the spaces and areas damaged or destroyed by said fire or other casualty, and upon written notice of such election from Sublessor to Sublessee, the obligation of said Sublessee to pay rent shall cease and this Agreement shall thereupon terminate.

In the event of any damage or destruction by fire or other causalty to the premises, Sublessee shall immediately, at its expense, replace and repair any and all fixtures, equipment and other property, installed by it pursuant to this Agreement.

Article X

Sublessee does hereby agree that it shall relocate its facilities, desks, equipment, and other property to such other place or places as may be directed by Sublessor or its departments or agencies, or such other governmental agencies.

Article XI

If sublessee shall vacate or abandon the premises or permit the same to remain vacant or unoccupied for a period of ten (10) days, or in case of the nonpayment of the rent and charges reserved hereby, or any part thereof, or of the breach of any covenant in this Agreement contained, Sublessee's right to the possession of the spaces and areas thereupon shall terminate, with or without any notice or demand whatsoever, and the mere retention of possession thereafter by Sublessee shall constitute a forcible detainer of said premises, and if the Sublessor so elects, but not otherwise, this Agreement shall thereupon terminate and upon the termination of Sublessee's right of possession, as aforesaid, whether this Agreement be terminated or not, Sublessee agrees to surrender possession of the premises immediately, without the receipt of any demand for rent, notice to quit or demand for possession of the premises whatsoever, and Sublessee hereby grants to Sublessor full and free license to enter into and upon said premises, or any part thereof, to take possession thereof without process of law and to expel and remove Sublessee, or any other person who may be occupying the premises, or any part thereof and the Sublessor may use such force in and about expelling and removing Sublessee and said other person as may reasonably be necessary and Sublessor may repossess itself of the said premises as of its former estate, but said entry of said premises shall not contitute a trespass or forcible entry or detainer, nor shall it cause forfeiture of charges due by virtue hereof, nor a waiver of any covenant, agreement or promise in said Agreement contained, to be performed by Sublessee.

Sublessee hereby waives all notice of any election made by Sublessor under this Agreement, demand for rent, notice to quit, demand for possession, and any and all notices and demands whatsoever, of any and every nature, which may or shall be required by any statute of this State relating to forcible entry and detainer, or to landlord and tenant, or any other statute, or by the common law during the terms of this Agreement. The acceptance of rent, whether in a single instance or repeatedly, after its falls due, or after knowledge of any breach hereof by Sublessee, or the giving or making of any notice or demand, whether according to any statutory provision or not, or any act or series of acts, except an express written waiver, shall not be construed as a waiver of Sublessor's right to act without notice or demand or of any other right hereby given Sublessor, or as an election not to proceed under the provisions of this Agreement.

If default be made in the payment of the rent, or other charges herein reserved, or of any installment thereof, as herein provided, Sublessee does hereby irrevocably constitute any attorney of any Court of Record in this State, attorney for it and its name, from time to time, to waive the issuance of process and service thereof, to waive trial by jury, to confess judgment in favor of Sublessor and against Sublessee for the amount of rent which may be then due, by virtue of the terms hereof, or of any extensions or renewals hereof, or by virtue of any holdover after the termination hereof and which may be in default, as aforesaid, together with the costs of such proceedings and for said purposes to file in said cause his cognovit thereof, and to make an agreement in said cognovit, or elsewhere, waiving and releasing all errors which may intervene in any such proceeding and waiving and releasing all right of appeal and right to writ of error, and consenting to an immediate execution upon such judgment, and Sublessee hereby confirms all that said attorney may lawfully do by virtue hereof. Sublessor shall have a first lien on Sublessee's interest hereunder, and on Sublessee's property now or hereafter located in said premises, or elsewhere, to secure the payment of all moneys due hereunder, which lien may be foreclosed in equity and in case of such foreclosure proceeding, a receiver shall be appointed to take possession of said premises and property, under order of court.

The obligation of Sublessee to pay the rent reserved hereby during the balance of the term hereof, or during any extension thereof, shall not be deemed to be waived, released or terminated, nor shall the right and power to confess judgment given in the preceding paragraph hereof be deemed to be waived or terminated by the service of any five-day notice, other notice to collect, demand for possession, or notice that the tenancy hereby created will be terminated on the date therein named, the institution of any action of forcible detainer or ejectment, or any judgment for possession that may be rendered in such action, or any other act or acts resulting in the termination of Sublessee's right to possession of the premises.

The Sublessor may collect and receive any rent due from Sublessee and payment or receipt thereof shall not waive or affect any such notice, demand, suit or judgment, or in any manner whatsoever waive, affect, change, modify or alter any rights or remedies which Sublessor may have by virtue hereof.

Sublessee shall pay and discharge all costs, expenses and attorney's fees which shall be incurred and expended by Sublessor in enforcing the covenants and agreements of this Agreement, whether by the institution of litigation or in the taking advice of counsel, or otherwise.

The rights and remedies hereby created are cumulative and the use of one remedy shall not be taken to exclude or waive the right to the use of another.

Article XII

Sublessee shall observe and comply with all laws, ordinances, rules and regulations of the Public Building Commission, the City of Chicago, the Circuit Court Clerk of Cook County, Illinois, and all agencies or departments thereof which may be applicable to its operations or to the operation, management, maintenance or administration of the Civic Center now in effect or hereafter promulgated.

SECTION 1. That of the $46,000,000 Bonds originally authorized at the election held in and for said City on June 14, 1966, $41,000,000 remaining unsold and for the purpose of paying the cost of improving, extending and constructing sewers in the City of Chicago, it is deemed advisable, necessary and in the interests of the City and its inhabitants, that $13,000,000 of said Bonds be issued at this time. Said Bonds shall be dated January 1, 1967, shall be numbered from 1001 to 3600, inclusive, shall be of the denomination of $5,000 each, and shall mature as follows: $1,000,000 on January 1 of each of the years 1976 and 1977, $2,000,000 on January 1 of each of the years 1978 and 1979, and $1,000,000 on January 1 of each of the years 1980 through 1986, inclusive, and shall bear interest at the rate of five per cent (5%) per annum, until paid (unless said issue of bonds or any part thereof are sold as provided by Section 4 of this ordinance bearing a rate of interest less than five per cent (5%), in which event the bonds so sold shall be printed and executed bearing such lesser rate of interest until paid), payable July 1, 1967, and semiannually thereafter on the first days of January and July in each year. If bonds are sold bearing such lesser rate of interest, taxes hereby levied for payment of interest shall be abated accordingly as hereinafter provided. Both principal of and interest upon said bonds shall be payable at the office of the City Treasurer, in the City of Chicago, Illinois, or at the office of the fiscal agent of the City of Chicago, in the City of New York, at the option of the holder. Interest due on or prior to maturity is payable only upon presentation and surrender of the interest coupons thereto attached as they severally become due.

The bonds shall be signed by the Mayor of said City, and shall be sealed with the corporate seal thereof and attested by the City Clerk and countersigned by the City Comptroller, and the interest coupons evidencing the interest on said bonds shall be executed with the facsimile signatures of said officials, which officials by the execution of said bonds shall adopt as and for their own proper signatures their respective facsimile signatures appearing upon each of said interest coupons.

Said ordinance shall direct the County Clerk of Cook County to reduce and abate the amount of taxes hereby levied for the payment of interest upon the bonds so sold so that the amounts to be extended and collected in each of said years for payment of interest thereon will equal the amount of such interest computed at the rate of interest less than five per cent (5%) borne by the bonds that were sold and delivered.

A certified copy of said ordinance shall be filed in the office of the County Clerk of Cook County, which shall constitute direction and authority for such reduction and abatement of taxes so levied for payment of interest on such bonds.

Tribute Paid to Late Stephen M. Bailey.

Also a proposed resolution reading as follows:

WHEREAS, In the death of Stephen M. Bailey, many of us in the City Council, and I in particular, have lost a loyal and trusted friend and advocate, one who was never too busy or preoccupied to lend an ear to our problems or to be of assistance to us whenever possible. The City of Chicago will sorely miss this proud and dedicated citizen who, by his monetary contributions to civic, cultural and charitable organizations and his active and enthusiastic participation in their individual programs, encouraged the progress and development of our City; and

WHEREAS, Compelled by his family's circumstances to drop out of school at the age of thirteen years, a necessity he always deplored, he endeavored at all times to protect others from the same experience. The recipient of the Eleanor Roosevelt Humanities Award, the 1962 Good Scout Award and many other honors and citations during his long years of civic participation, he epitomized the spirit of ecumenism long before its promulgation by Pope John and the Vatican Councils. He was admired and beloved by all for his humanitarianism; and

WHEREAS, Two years after joining Local 130 of the Chicago Journeymen Plumbers Union, he was appointed Business Agent and subsequently served for some twenty-one years as Business Manager of the Union. He held various official positions in other Chicago Area labor organizations, becoming the first Vice-President of the Chicago Federation of Labor and Industrial Union Council on its founding in 1961; and

WHEREAS, A staunchly realistic, articulate and uncompromising champion of labor, he nevertheless conceded the equity of management's right to a

profit. He refused to tolerate featherbedding or other negative practices by his men, and he never hesitated to remind them of their individual responsibility to the people they served and to the union he so proudly represented. He was known for his perceptive analysis of the needs of his men and for his objective and resourceful efforts to resolve the problems besetting them; and

WHEREAS, Nationally acknowledged as a shrewd, tough negotiator, he was also noted for his warm and congenial personality and for his excellent sense of humor, a talent he administered so effectively at the bargaining table. The pixie quality of his humor was best manifested by the exercise of his position as General Chairman of the St. Patrick's Day Parade for, not content with dyeing the Chicago River green, he prevailed upon the telephone company to festoon its orange-colored booths with green bunting, a victory perhaps more enjoyable to him than any public recognition of his outstanding civic record; and

WHEREAS, His achievements are not reflected exclusively in his administration of his union office but in his countless contributions to charitable, civic and cultural programs, and to the betterment of the City he loved and by which he in turn was beloved; and attest to his qualities of exceptional personal integrity, selfless dedication and astute leadership. He was famous for his thoughtfulness toward others, his fairness, his championship of human right, his personal philosophy of life and his unswerving loyalty to his family, his friends, the men he represented so eloquently and his fellow citizens; now, therefore,

Be It Resolved, That the members of the City Council of the City of Chicago, do hereby express their respect and esteem for Stephen M. Bailey, their sense of deep personal loss, and extend to his bereaved widow, Marge, and to his three sisters, their most sincere sympathy.

On motion of Alderman Casey said proposed resolution was *Adopted,* unanimously.
